

A grand event planned

The ribbon-cutting and opening of the AMA Alumni House and Museum. A reception at White Hall for early birds. Golf, tennis and sporting clay events. A Saturday night dance with an invitation to bring your musical instrument and "jam" with the band. Announcement of the AMA Alumni Medal winners. A Kentucky Derby party on Saturday afternoon. A tour of area attractions. The Silent Auction. Awarding the Year 2000 AMA Legacy Scholarship winners. And more!

That's what is planned for Reunion 2000, and the time to register is now. And you had better get your hotel room reserved since our reunion weekend is commencement weekend at James Madison. Space will be tight. Details inside!

Contributions drive continues

Good response to fund request

The response has been good from AMA alumni and friends who have been asked to step up their contributions in support of the new AMA Alumni House and Museum, according to **Goodloe Saunders, '57**, President of the AMA Alumni Association.

"We are very grateful to our loyal friends who answered the call," said Saunders. "We now have more than 40 members of the President's Council, composed of those who have donated or pledged at least \$1,000 to the renovation of the old Roller-Robinson house. We know that not everyone can give \$1,000, and we are quite pleased with the number of folks who have bought paver bricks or who have simply written checks for what they can afford."

Work on the house continues unabated. (story on page 17) There have been 2 unforeseen expenses: the county required installation of an expensive sprinkler system, and the owners of AMA required the house to be separated from the Mess Hall which gave us 2 more rooms than were in the original plans.

While work on the interior and exterior of the house should be completed in time for Reunion 2000, it will be some time after that before the museum will have its exhibits ready for viewing. "It will be a work in progress at the time of the reunion," says **Duke Fancher, '58**, new Chairman of the Museum Committee.

Saunders said he hopes that there will not be a slowdown in contributions. "We still need money and will until the house is completed and the offices and all the exhibits are complete. It's a new year and a new millennium, and we want to have the house all paid for when we get to the reunion in May."

A list of current President's Council members is on page 11. Those who have contributed or pledged at least \$1,000 will have a pre-ribbon-cutting tour of the AMA Alumni House and Museum at the reunion, will attend a special reception at White Hall, are receiving periodic reports on the renovation, and will have special ribbons on their reunion registration badges.

A second program which is raising money for the house is the brick paver project. Specially engraved bricks will be used in conjunction with the reconstruction of the walkway leading from the front of the Roller-Robinson House toward the front gate. AMA alumni and friends may purchase these bricks to honor a living person, to commemorate someone who has gone before, or to honor a team, teachers, roommates, and others important to their lives. An order form is on page 31 and samples of bricks already purchased are on pages 32 and 34.

Winter 2000

Dear Fellow Alumnus:

This is the first time that I have put the year 2000 on a letter. On behalf of your alumni association, let me welcome you to the 21st Century and to all the promise that the future holds for us.

I want to thank sincerely those who stepped up to the plate and helped us get the funds needed for our AMA Alumni House and Museum. I know that everyone could not contribute a thousand dollars, or even a hundred. But I do feel that every last one of us can contribute *something*. That's where each person has to decide what AMA has meant to him in his life.

The need is still there. Work is going forward on the Roller-Robinson House even as I write this letter, and I am still hoping that we can open our museum and headquarters for the alumni association without having a debt to service. If you haven't yet contributed, I hope you will do so soon. If you have already given, we can always use more, though I continue to hope that our success will not be dependent on the same good people who always respond.

I'm not much for New Year's resolutions, but I would like to propose one for all of us. Let's do all we can in the first 6 months of 2000 to see the AMA Alumni House and Museum open on time, *and in the black!*

Reunion 2000 a time to find close friends

Pictured below are friends from adjacent classes. **Tex Wainwright, '59**, lives in Maryland, despite his nickname. **Jim McLelland, '60**, lives a state away in Statesville, NC.

The photo was taken at the 1999 AMA reunion. Which helps make our point. No matter how far from Fort Defiance your life may take you and no matter how long it has been since you visited the place, there's a magic that

happens when you set foot on the campus. The stories tucked away in the attic of your mind begin to tumble out. Stories that the dearest ones in your life have never heard will emerge. Of course, you'll try to convince everyone that you marched more penalty tours or shoveled more coal than any other cadet who ever wore AMA gray.

But whether you have come to every reunion or it is the first for you, you'll leave a little of your heart in Fort Defiance.

Get your hotel reservation made now and get yourself to Fort Defiance in May! What a way to start a new century!
