It Got Really Cold in the Winter

I went to AMA in 1963 and 1964.

In 1963, it was the coldest winter I can remember. I would get up in the morning and there would be a quarter inch of ice on the inside of our window.

In 1964, I lived in the Tower and that was nice compared to being on the stoop.

I made the Roller Rifles that same year.

Three days before graduation we got caught playing poker and almost got thrown out of school.

These are just a couple of things that come to mind.
