

## High Jumping Hoopster Pete Lampman, '65

If you wonder how Pete Lampman... from the Class of 1965... approached basketball... just look at the *Recall* photos from the years he played for AMA.

Every photo of Pete has him jumping higher than his taller opponent to block or knock down a shot... or to steal the ball away...

High flying Pete Lampman lays in another one

...or shooting a basket with both feet three feet or more in the air.

Pete Lampman scored 487 points in 1964...

And an amazing 546 points the next year.

He was captain of the AMA basketball team his senior year.

He broke all the AMA and Virginia Military League basketball scoring records in both years.

In every game he played... he was the top scorer going away.

At the same time was one of the very best playmakers.

And he was not selfish with the ball... passing off if he didn't have an iron-clad shot.

Pete also played lacrosse and ran track... but what his fellow cadets waited for was the basketball season...  
...for that's when Pete would tear up our gym!
